At Cooma, Yass, and about that district, it was firmly believed to have come to the earth in the neighbourhood, and to have fell by the side of Jellimatong; indeed, it was reported that fragments were picked up in that district. The explosion seemed to be quite close to the observers, and was called by some an earthquake. Now from Mr. Christian Ogilvie, at Omeo, I received a very interesting account of the meteor as seen in the Omeo district by numerous observers, and here also the explosion was localised at the mountain called the Brothers. Two observers, five miles from the mountain, in different directions, describe it as if the mountain had burst, and like the crash of an enormous falling rock, followed by thunder. It is not probable, I think, that there could have been two explosions of this meteor, but that whoever witnessed the apparition and heard the explosion, estimated it to have taken place in his immediate vicinity, although there can be little doubt that the meteor was at no time during its appearance within 80 or probably 100 miles of the earth. Observers at Seymour describe having seen the meteor burst, though no sound, of course, reached that district. Art. X.--The Perception of Colour. By James Jamieson, M.D. Read 17th October, 1878.
