Ever thought about how cool is it to have a website that has a log-in/log-out functionality? Need to figure out how to Create, Read, Update or Delete (CRUD) records in a database? Have you lost track of your past instructional exercises? Having considered all these questions, I m going to show you how to make a website without any outside help where you will know each and every subtle element on how the PHP website code functions and the MySQL Database features. If you are new to back-end web development, this instructional book is for you. I ll clarify everything in your point of interest so that you won t need to research some specific techniques being used in PHP. To keep things as straightforward as possible, we won t be using any complex systems. Additionally, I won t be concentrating on the websites design because we are after the functionalities. However, it s anything but difficult to execute the design. What this book will be doing is an easy yet exhaustive analysis of the entire PHP Coding process. So, what is PHP? If I may confess, I am a quite a PHP geek and expert. So, I hope this book will enable you to take everything that I ve learned from years of studying PHP to expand and almost explode with information about the art of PHP coding process and how easy and fun it is to make an interactive and dynamic website using PHP...
