Not illustrated. 1835 Excerpt: .crosses, which would give 24) as free from error, compare it with the mean of four. But, in this instance, I should have been obliged to bore through the pier to fix that which should examine the nadir of the circle, which was likely to injure it; and I used the following method instead: Let B and D represent two of the reading microscopes of the circle (whose graduation runs in the direction IB), and let I and 11 be two others; call the half sum of B and D = S, of I and 11 = 2, $\therefore S - 2$; now, if II and I be set at the divisions T and $180 + T$, 2 will give the position of the diameter (T, $180 + T$) independent of excentricity, if those two divisions be correct. Let the correction they may require be denoted by the symbol e T,...

Reviews

This book could be worthy of a read through, and a lot better than other. It can be full of knowledge and wisdom I am just happy to tell you that here is the best book we have read through inside my personal lifestyle and could be the finest pdf for ever.

-- Miss Concepcion Gusikowski DDS

Good electronic book and valuable one. Of course, it is actually perform, still an interesting and amazing literature. You may like how the author publish this pdf.
