

Freud, Sex, and Dreams: A Beginner's Guide to Dream Psychology (Paperback)

By Sigmund Freud

BOOK JUNGLE, United States, 2003. Paperback. Book Condition: New. 237 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.Sigmund Freud, the father of modern Psychology, was well known for his extraordinary work in dream analysis. He concluded that the unconscious mind is unleashed during the dream state. For this reason he saw an opportunity in dreams to peer into his patient's darkest desires and deepest fears. His studies describe how his patient's dreams reveal their daily challenges with adultery, incest, phobias, and distress. Freud's genius lied in his ability to identify core issues that trouble his patients. Very often the issues at hand are very personal and his patients wouldn't admit the true nature of their dilemmas. Only when recalling their dreams would his patients unwittingly reveal their unconscious mind to the questions of an experienced inquisitor. With this insight into his patient's hidden traits, and his own vast experience, Freud would always come up with resourceful solutions to the tribulations that his patients face. ***** Print on Demand *****.
